

Bremer Bay Dive

LOCAL EXPERTS FOR HELP WITH ALL YOUR DIVING NEEDS

Join the Bremer Bay experts on a journey of discovery

Bremer Bay Dive and Sports, established in 1994, is the oldest PADI (Professional Association of Diving Instructors) teaching faculty on the south coast and the proprietor has done a massive amount of research on seadragons and their conservation in this area of Australia.

Attractions

Along with the Leafy and Weedy Seadragons enjoy large areas of Tubinaria hard coral, soft coral, a wide diversity of Sponges and a tremendous variety of fish life. With a narrow water temperature range (17-21°C) many tropical species visit our temperate waters.

Guided Dive Tours

We provide a guide (known locally as the dragon whisperer) on our special seadragon dives and other dives as required. For a unique experience take a guided "scooter" dive out to the plate coral with perhaps a few weedy and leafy seadragons along the way?

Sales and Rentals

At Bremer Bay Dive and Sports we sell and rent a range of items for scuba and snorkelling. We also stock various sizes of boogie boards, skim boards, surfboards and an assortment of water sports and boating equipment.
